OIL FOR FUEL.

The Burlington Going to Use It on Its Locomotives.

CHICAGO, May 9.—In the yards of the Chicago, Burlington & Quincy company at Aurora, a number of locomotives are now being provided with apparatus for burning oil. It is said that it will take but a short time to equip every engine belonging to the company with the apparatus.

The Burlington management intends to make the first trial trip to the Mississippi with oil as fuel within a short time. If the run on the road proves as successful as the experiments in the yard have proved, all the locomotives in the company's service will be sent to the shops to be supplied with burning oil.
Superintendent F. C. Rice, of the company, is enthusiastic over the prospects of being able to do away with coal. It is much cleaner and its use will leave locomotives in much better condition than coal; it will last much longer, weigh less and occupy less space, and hence will give much more room for water, an important consideration.

TWICE, TOO MUCH.

People Who Fed First Band of Commonwealers,

Not Anxious to Provision Any More Armies.

TAKES LOTS OF FOOD

To Feed an Army Says a Southern Member.

WASHINGTON, May 9.—[Special.]—All the parks are gorgeous in their summer beauties, and all the people have been vaccinated. The smaller parks are over, the cholera scare has not revived, and if Coxe's army and their kindred hobos do not start a pestilence we may be happy yet. All ladies are in their summer rig, and all the society men testify that lawn parties, ice cream festivals and evening walks and rides were never better patronized. Even from the remote provinces comes news of a rather encouraging nature, for the reports run that the various detachments of so called industrialists are finding it very hard to get any nearer to Washington. The people who fed the first detachment and made it godsend look upon the second one as a nuisance. It is interesting also to note that the few congressmen who served in the commissary department during the war take a very different view of the proper remedy from those held by their colleagues.

Difficulties of a March.

A southern member, speaking to a group on this subject, said: "People without experience have very little idea of the enormous difficulty of supplying 1,000 men in a march across the country, and really I was glad to hear that Kelly's army exceeded that number, for I knew they would never reach here. Start 3,000 men from Council Bluffs straight toward this city through the farming regions without a commissary and with the most peaceful intentions in the world, destroying nothing in more malice, and they will devastate a strip two or three miles wide, and unless under the very strictest discipline they will completely before any small area in which they camp three days. And that is just what even these 500 or 400 of Coxe's men would do if they should remain in their first camp a fortnight. Why, a regiment of raw soldiers not under a good commander will render a camp of two or three acres unfit for visiting in a week and would make a mere city lot too poisonous to abide in." His remarks were but too well verified soon after Coxe's men were located, but the place which was given to them was already the vilest in the District of Columbia.

A Reversal of Policy.

In the meanwhile congress is showing business along with quite an increase of speed, and as the various committees of the house wind up their most pressing business many things are made certain, mostly in the negative. It is, first of all, certain, so those most interested say, that there will be no new states admitted by this congress; also that the Nicaragua canal bill will not become a law, for the house committee is greatly opposed to it. The chairman in particular believes that the time has come to completely reverse the machine, and that all forms of what he calls paternalism should be opposed for the present and some years to come. In short, this committee will have to do much to undo the mischief, no inducing of bonds or lending the government's credit for the Nicaragua canal or anything else of that class. As to the bill prepared by Attorney General Olney for consolidating the affairs of the Pacific railway, the committee declares after each hearing that the time before anything can be done must be greatly extended. The attorney for the Central Pacific has presented a batch of facts and figures which a novice in the business could not hope to understand in less than a month and promises that after consultation with the officials of the road he will present a plan. The committee on patents is wrestling with a bill introduced by Amos Cummings which is by title an act to amend title 60, chapter 3, of the Revised Statutes. It provides that any person publicly performing or representing any copyrighted operative or dramatic composition without the consent of the proprietor shall be fined not less than \$100 for the first representation nor less than \$50 for each subsequent representation and shall be guilty of a misdemeanor besides. So far the measure seems searching enough, but the meat of it is in what follows. The proprietor may get out an injunction before the federal court anywhere, and that may be served anywhere in the United States. The bill is favored by the dramatic association of New York, which is to have a hearing before the committee.

Military Matters.

The veterinarians of the United States army have joined in a request that they may have and enjoy the same rank as second lieutenants of cavalry, and Mr. Pickler of South Dakota has introduced a bill to gratify their ambition, but a subcommittee of the committee on military affairs has reported against it, and its fate, therefore, is probably sealed. One object of this bill and probably the only object of its companion bill is to give a military standing to men who need it for other purposes than the pay. The committee authorized the secretary of war to issue a commission to any contract doctor or hired surgeon who served three months during the war in attendance upon United States troops. Every old soldier will remember that in emergencies physicians were called from civil life and followed their profession among the troops just as if employed by private citizens. At the beginning of the war this was very common, and thousands probably of young doctors served in hospital or elsewhere. These men now want a rank that will enable them to join the Loyal Legion, the Grand Army or other organizations and generally enjoy the rights and privileges of veterans. The secretary of war is therefore empowered to muster them in and out again with the rank their service would entitle them to, but they are to get no extra pay and gain no rights otherwise. This bill will probably pass.

Encouraged Democrats.

Whatever may be the cause, it is certain that there has recently been a general brightening up along the lines with the majority party, and Democratic congressmen who only three weeks ago were de-

hook, line and sinker, now talk confidently of holding the next house by a good working majority. Some even go so far as to declare that the tariff bill will become a law by the 20th; that they will be at home two weeks later; that business will revive with the biggest boom since 1879, and that everything Democratic will be transcendently lovely, but these are few and all of the redheaded and brightly blue eyed speculators.

INDIGNITY TO AMERICANS.

Canadian Revenue Cutter Seizes Two American Fishing Vessels.
SANDUSKY, Ohio, May 9.—Today off Pelee island the Canadian revenue cutter Petrel, Captain Dunn commander, captured two American vessels, the Visitor and LeRoy Brooks, and forty gentlemen from Cincinnati, Dayton, Springfield and Decatur, Ill., who were fishing for black bass.

The vessels were dismantled, placed in charge of an armed crew and towed to Amherstburg, Canada. The gentlemen were afterwards released. Great excitement and bitter feeling is felt on the islands for the insult, against the Canadian officials.

No complaint has been received by the state department relative to the capture by the Canadians, of two American steamers, crews and passengers, who were fishing in Lake Erie. It is assumed that the parties were fishing on the Canadian side of the boundary line, where they had no right to be, as these waters are under Canadian jurisdiction, according to the treaty of Ghent.

History Repeats Itself

The First Ward, Too, Is Not Exactly Satisfied.

The Morrill caucus held in the First ward last night does not seem to be satisfactory to the voters of the ward, and even some of the men whose names appear on the delegation selected by the caucus are objecting to the ticket.

The dissatisfaction has grown to such an extent that a call has been issued for a caucus of the Republicans of the ward to be held at the fire station tomorrow night.

NEWS OF KANSAS.

Contests in the Musical Jubilee at Hutchinson.

Crank Going to Kill Mrs. Lease He Says.

OTHER STATE NEWS.

Large Livery Stable Burned at Lawrence.

HUTCHINSON, May 9.—The second Kansas jubilee opened here with the pipe organ contest. There were two entries in the contest, Mrs. Lund and Miss Forsa Scott of this city. In the cornet solo contest J. W. Davis, of Valley Falls opened. His selection was the "Holy City." He was followed by W. T. Whitlock, of Winfield, with "Silver Star Polka," Prof. Haggood, of Lindsborg, with "Mia," by Hartman, and P. G. Lowrey, of Reese, with the "Honey Suckle Polka" by Casey.

The vocal duet contest had four entries, M. H. Whiteside and Mr. D. L. Wall of this city with "A Night in Venice," the Misses Stanley of Great Bend with "Hear Me Norma," Prof. Haggood and Krantz, of Lindsborg, with "The Fisherman," and Mrs. C. D. and Miss Eva Norris of this city with "Only Thee." Miss Atkins, of Wichita, and Prof. K. Geza Dome, of Leavenworth, were the only entries in the violin contest. They both played "Andantino Polonaise."

Nine men contested for the tenor solo honors. They were: Messrs. Eaton of Winfield, Hobson of Kingman, Walker of Great Bend, Cuthbertson of Fort Scott, Shirer of Topeka, Smythe of Wichita and Foltzer, Allen and Jell of this city. Two selections from Jeptha were chosen, "Deeper and Deeper Still" and "Wait Her, Angela." Each of the contestants showed great study in his preparation, but if consensus of public opinion can be taken as an index of Prof. Archer's award, the prize in the contest will surely be given to H. L. Shirer of Topeka.

The first day of the jubilee was ended with a mixed concert of vocal and instrumental solos, duets and quartets.

WANTS TO KILL MRS. LEASE.

A Crank Who Believes He Has a Duty—He Will Furnish Flowers.

WICHITA, May 9.—Chief of Police Cone has just received a letter threatening the life of Mary E. Lease and warning him against her.

Minu, dated May 5th, and is not the first one he has written of a sensational sort. It is as follows: Chief of Police and Guardian of Civic Rights: I warn you against Mrs. Mary Lease, whose teachings are dangerous to the president's and the Nazarene's ascending throne of glory, and righteousness in the Lamb. You must send your officers to take her, for she shall not escape me. You must keep her until I come. You will not know me or see me, for the Nazarene is like the dew that falls upon the plants and flowers. I had a vision which told me that the red cross and blood on his breast must be obeyed. I have a duty to perform and I must kill her on May 20. She cannot escape me. You are to help me, and I will send money for the flowers and oil.

The Nazarene had oil poured on his feet. The eyes of human kind converse as much as their tongues, with the adoration of his breast must be obeyed. Her eyes say one thing and her tongue another. I know her terrible intentions. President Cleveland is a good man, and if Prendergast is murdered he will be an angel.

You will not know me when I come and stand by her coffin and see that you do your duty. The flowers must be white and your duty.

On May 20 I will be with her. I have prayed to the Nazarene and the vision shows me what to do. You are my friend and I will trust you. I will not shed her blood for she was born a Catholic. Her tongue does not speak the truth about the cross.

On May 20, FACILE PRINCEPS.

BLAMES KANSAS WITH COXEVISM.

Congressman Hall of Iowa, Shows His Ignorance in a Letter.

ABILENE, May 9.—An interesting letter has been received by D. Huggins of this city, from his old friend, Congressman John A. T. Hull, of Iowa. The letter reads as follows:

My Dear Old Comrade,

I am delighted to have yours of 24th ult. * * * I suppose you this morning read all about the Coxey blow-out yesterday. The move was a flat failure. Coxey and Browne were hustled off the Capitol steps and grounds. Browne resisted and was locked up until released on bail. The "army" back of these men are as unpromising a lot of bums as you ever heard of. They are banded together to make honest people feed them. They don't want work and are being educated to believe that the government should feed and clothe them in idleness. Your Kansas school of politics is largely responsible for the awful demoralization of the country. The Democratic party has made it possible for the bad seed to germinate.

When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
